

Pursuant to Article 4.2, 4.7 and 7 of the Law on Transmission of Electric Power, Regulator and System Operator of Bosnia and Herzegovina (Official Gazette of BiH, 7/02, 13/03, 76/09 and 1/11), Article 36 of the Rule of Practice and Procedure of the State Electricity Regulatory Commission (Official Gazette of BiH, 2/05) and Article 16 of the Licensing Rule – consolidated text (Official Gazette of BiH, 63/16), the State Electricity Regulatory Commission, at the session held on 14 March 2019 passed a

DECISION
ON ISSUANCE OF LICENCE FOR ACTIVITY OF INTERNATIONAL TRADE IN
ELECTRICITY

1. The licence shall be issued to the Company "EZPADA" d.o.o. Mostar for performance of the international electricity trading activity.
2. The licence referred to in Item 1 of this Decision shall be issued for the period from 1 May 2019 to 30 April 2024 and used pursuant to the Standard licensing conditions for performance of the international electricity trading activity (Official Gazette of BiH, 14/16).
3. This Decision shall come into force on the day of adoption and the statement of the Decision shall be published in the Official Gazette of BiH and official gazettes of the Entities.

The Company "EZPADA" d.o.o. Mostar (hereinafter: the applicant) is a holder of the licence for the international electricity trading activity, recorded in the Licence Register of this Commission under registration number: 05-28-12-385-16/13 of 26 March 2014, expiring on 30 April 2019.

In accordance with the right to use a possibility of renewing a licence and fulfilling the obligation referred to in Article 48 of the Licensing Rule - consolidated text (Official Gazette of BiH, 63/16), to express its intention to continue to perform the international electricity trading activity no later than 120 days before the expiry of the term of the existing licence, the licensee filed an application for the granting of a new licence that was registered under number: 05-28-12-207-1/17 of 6 June 2017. The application filed shall be decided upon pursuant to internal rules and regulations of SERC and Article 7 of the Law on Transmission of Electric Power, Regulator and System Operator of Bosnia and Herzegovina (Official Gazette of BiH, 7/02, 13/03, 76/09 and 1/11).

The application was submitted in a timely manner, on the prescribed forms with a proof of previously paid application fee and relevant documents which enabled SERC to understand, consider and decide upon the submitted application of which SERC informed the applicant accordingly by its act number: 05-28-12-469-3/18 of 27 December 2018.

Having reviewed and checked all the formal elements of the application, first of all on 29 December 2018 SERC published a short public notice in daily newspapers and on its web site, summarising the application and determining the deadline for submission of public comments on the submitted licence application until 7 January 2019.

SERC concluded that the public had not submitted any comment on the application filed for the issuance of licence nor had any person expressed the interest to participate in the procedure in the capacity of the intervener upon the SERC public invitation.

The applicant fulfils indisputably all the criteria, conditions and standards prescribed by law and SERC rules and regulations to perform international trade in electricity because it constantly proved its technical, legal and financial capabilities during the previous five years of use of the licence and provided evidence of having ensured resources, organised conditions and established professional standards to continue to perform the same activity.

Monitoring of all aspects of compliance of the applicant's activities with the conditions and criteria for performance of the activity of international electricity trading so far provided SERC with the basis to initiate the renewal of the licence, i.e. to prepare a Draft decision on issuance of licence for the international electricity trading activity which would be valid for another five years and used pursuant to the Standard licensing conditions for performance of the international electricity trading activity.

As of 2 February 2019, this document was made available to the applicant as well as all other interested members of the public who were also provided with an opportunity to give their comments during a general public hearing held on 7 February 2019 at the SERC seat in Tuzla preceded by publication of an adequate notice in daily newspapers and publication of the document on the SERC web site.

As even on the last occasion until 19 February 2019, following the SERC letter number: 05-28-12-469-14/18 of 11 February 2019, the applicant did not point out any disagreement with any provision of the proposal of the Decision, there were sufficient grounds to conclude that it was considered that the SERC's proposal was prepared in accordance with the Law on Transmission of Electric Power, Regulator and System Operator of BiH and secondary legislation dealing with the matters concerned.

In accordance with the aforementioned and also taking into account the evidence that the applicant had been previously granted the second tier licence for performance of the electricity supply activity by the Regulatory Commission for Energy in the Federation of BiH, which is valid until 18 March 2022, SERC decided as provided in the statement of this Decision.

Pursuant to Article 9.2 of the Law on Transmission of Electric Power, Regulator and System Operator of Bosnia and Herzegovina, proceedings may be initiated before the Court of Bosnia and Herzegovina by filing a lawsuit within sixty (60) days of receipt of this Decision.
